

Success is Sure to Come to all who Invest in Eastern Utah Property.

The Pittsburgh of the West. Its coal deposits are unequaled. In quantity and quality, Eastern Utah has the world beaten for SURE investments. Did you ever hear of anyone making a failure? SUCCESS has come to all who have taken our advice in the past and it is still as free as the water that runs down beautiful Price River Valley.

Wishing you all a merry Christmas and hoping that the year 1914 will be as successful for you as 1913 has been for us.

It's never too early nor too late for us to take care of your business. Our day phone is 142; our night phone 123. We don't care what you want or where you want it, we can fill your wants.

HIGH SCHOOL NOTES

On Saturday evening the first year domestic science girls under direction of Miss Frost served dinner to the members of the high school board of education with their wives and a few invited guests. The dinner was a success in every way, and demonstrated the fact that the girls in the Carbon County high school are learning to prepare and

serve meals that would be a credit to any institution. Among the invited guests of the occasion were Mayor and Mrs. W. F. Olson, A. W. Horsley, Attorney M. P. Bruffet, Apostle Orson F. Whitney of Salt Lake, and Bishop A. P. Miller, also of Salt Lake. In the toasts that were given the visiting gentlemen manifested their surprise at finding the splendid building and fine equipment of Carbon County high school. Bishop Miller said that he had picked up many points which he would suggest to the board of

education in his own district. The local gentlemen commended the board of education for their good work and predicted nothing but prosperity and growth for the high school. Mayor Olson prophesied that the enrollment would reach four hundred in four years.

Following is the menu of the dinner:

Fruit Cup
Consomme a la Royal
Roast Lamb, Brown Sauce
Mint Jelly, Cranberry Jelly
Mashed Potatoes
Corn Custard Hot Rolls
Sweet Cucumber Pickle
Crab and Lettuce Salad
Pumpkin Pudding
Tomato Relish
Cheese Straws
Lemon Cream Sauce
Ice Cream Cake Coffee

Last Thursday, at the general assembly, a program of musical interpretation was conducted at the high school by Professor Gingrich with violins. The purpose of the entertainment was to show the evolution in music from the middle of the sixteenth century to the close of the nineteenth. The machine is of a good make and the records, which were chosen and arranged by Mr. Gingrich, were new and clear.

A Good Roads Boost

Myron's Record of last Friday has this item from the Roosevelt correspondent: "Work is still progressing on the Willow Creek to Helper road. This road when finished means a still shorter distance to the railroad and the opening up to this basin the best produce market in the state. Everybody should get in and boost. The more good roads we can get the better we will be prepared for the railroad when it comes."

The Shortest Day.

Which is the shortest day in the year 1913? The weather bureau says that it is December 21st this year. Dean Howe, from his observatory at the Denver University, says that it is either December 22d or 23d and can't tell which. Some almanacs give December 20th and others give December 21st. The fact is that all three days are so nearly of the same shortness that there isn't the difference of a red camel's hair among them.

Making a Good Showing.

Uncle Jesse Knight's Spring Canyon mines are producing at this time about twenty cars of coal daily with a market for considerable more if the Denver and Rio Grande could handle it, while Kentworth is going to perhaps double this amount. The Standardville people expect to begin shipments about the first of the year if nothing unforeseen happens. All of this is handled by the Denver and Rio Grande from Helper's yards.
